# LITTLE FAVELAS

Hello and first of all thank you for buying my Asset !. This is my first asset 3D, so I hope you will like it.

What to do before opening the demo scene:
Import "Post Processing" :

Use the Unity Package Manager window (in Unity's top menu: **Window > Package Manager**) Then click the **All** button and select "Post Processing" After that , click the **Install** button

PS : I have use Post Processing version 2.1.3 and Unity 2019.3.0a2

If you have any trouble or any questions or any requests ,please contact me at :
basanta.florian@gmail.com

I will respond you fastest as possible !

You can contact me too on my ArtStation at this link :
https://www.artstation.com/fbstudio

Please if you enjoy my pack , you can let your comment on the Asset store.
Have a good day and i wish you the best for your project :) !
